

Celebrating how youth social action can address the socio-economic gap.

#iwill #TFImpact16 #CloseTheGap

Nearly all teachers get why social action is so crucial for their students. After all, a quality¹ experience can transform young people's character, skills and well-being, and even reduce anxiety, all whilst bringing about positive community change.

Young people from the least affluent backgrounds have the most to gain from getting involved in social action. But in 2016, young people from poorer backgrounds are significantly less likely to be doing social action. And it's not because they don't want to. One of the most commonly cited barriers is "no one ever asked me".

There are over 30 speeches, panels, workshops and exhibitors all aiming to inspire & equip the Teach First community to help #CloseTheGap through youth social action at #TFImpact16.

Visit <https://we.tl/ZgtW2MwvqI> to download the shareable infographics, and then pick your tweet below!

- *Most young people get involved in #SocialAction through their school or college. #TFImpact16 #iwill*

See here for how you can get involved and show your support for youth social action online.

Keep reading to see our top picks on where to go.

Youth social action is young people taking practical action in the service of others to create positive change. The #iwill campaign is a collaboration of over 500 organisations from across sectors who are all working towards the 2020 #iwill goal of making youth social action the norm for as many 10-20 year olds as possible across the UK.

Empowering ALL young people

This year the Teach First Impact Conference will welcome around 4,000 delegates who are all committed to making sure no child's success is limited by their background. Over 40 existing and potential #iwill campaign partners will be leading stimulating panels, workshops, speeches or exhibiting their social action opportunities and we hope that with your support we can inspire and equip more of the Teach First community to help their students lead social action in some of the most disadvantaged communities in the country.
